

# BIG FOUR

## Baseball

### Rules

The game is played with 2 teams.

On the blackboard, overhead, or using desks in the room, create a baseball diamond.

If you are using a special set-up in your room, you may wish to have a “dugout” area for the teams to sit together.

The teacher acts as the “pitcher” asking the questions.

### RULES

1. The teams are chosen by the teacher.
2. The teams decide what the “batting” order will be.
3. A coin is flipped to see who will “bat” first.
4. The batter stands up and the teacher asks a question. If the batter fails to answer the question correctly, the batter is out.
5. If the batter answers the question correctly, he/she advances to a base.
6. Play continues until there are 3 outs.
7. Once there are 3 outs the other team “takes the field”.
8. The games continues until one team has scored 5 runs.

### OPTIONS

1. Players may be allowed to steal bases if they can answer questions from previous lessons (one base for each answered question). The teacher decides if and when to ask a base stealing question.
2. If the questions have multiple answers, players may be allowed to advance on the bases for each additional correct answer.
