

Saturday Oct 23

Work at Chambers writing opinions. No court to day, and I am glad of it. The horse when court is in session are mighty long. I get down to my Chambers at 8; have 1 hour in which to dictate letters and look over matters; from 9 to 10 we are in the consultation room explaining to each other the cases we have examined; from 10 to 12 on the Bench; frequently leave about 1 to take up some motion or week like; from 1.30 to 3.30 on the Bench; from 3.30 till we get through, frequently till 5 or later, discussing, and coming to conclusion as to, the cases we have heard. These read take home, and sometimes 2, call for examination during the evening. I am not nearly so tired to night.

Mrs. Barnes stayed with us last night, and went away this morning, going to Freetown.

May went to the Station this morning for the post box game between the M. A. B. and the U. of M. We saw I was left alone with only the girl here, *Armand Brown* is also at the station, while *Armand Madison* is on the road.

*John E. Stone* letter from him as to the Mining cases, and especially as to cuts. We going to make New Bay there.

Weather bright, but cooler. Many trees bare of leaves.

Dear, May took it over and had it washed. I went and got it about 4, and rode around for about an hour.

Football. M. A. B. beat U of M. 74 to 0.
