Saturday Oct 23

Work at Chambers writing opinions. No court to day, and I am glad of it. The hours when court is in session are mighty long. I get down to my Chambers at 8; have 1 hour in which to dictate letters and look over matters; from 9 to 10 we are in the consultation room explaining to each other the cases we have examined; from 10 to 12 on the Bench; frequently back about 1 to take up some motion or such like; from 1.30 to 3.30 on the bench; from 3.30 till we get through, frequently till 5 or later, discussing, and coming to conclusion as to, the cases we have heard. These each takes home 1, and sometimes 2, cases for examination during the evening. I am not nearly so tired to night.

Mrs. Barnes stayed with us last night, and went away this morning, going to Jackson.

May went to Ann Arbor this morning for the foot ball game between the M. A. C. and the U. of M. Ida and I are left alone with only the girl here. **Armand Corom** is also at Ann Arbor, while **Armand Madden** is on the road. **John G. Stone**. Letter from him as to the Mining cases, and especially as to costs. Is going to make Cee pay them.

Weather bright, but cooler. Many trees bare of leaves.

Car, May took it over and had it washed. I went and got it about 4, and rode around for about an hour.

Football. M. A. C. beat U of M. 74 to 0.
